

13 Inch Professional Laminator

Model: IL-1346W

High quality laminator with fast warm-up time and 4-roller system for higher speed and consistent lamination results free of bubbling, wrinkling, and curling. Ideal for moderate usage in workplaces where higher productivity and professional quality lamination is important.

FEATURES

Four Roller System

- The four roller system provides precise heat and pressure to ensure high quality lamination

Hot and Cold Lamination

- The laminator can easily be adjusted to handle both hot and cold lamination pouch film. Can accept pouches up to 330 mm (13 in.) wide

Touch Screen Temperature Control

- Use the touchscreen display to switch settings for different film thicknesses from 3 mil - 7 mil.
- Quick 60 second warmup

Built-in Cooling Fan and Exit Plate

- Keeps laminator surface from getting hot and laminated materials flat and cool to touch upon exit. Also prolongs roller life

Fast Speed

- Laminates up to 23.6" (600 mm) per minute. This machine is equipped with overheat protection and auto shut-off after 30 minutes of non-use

Patented Auto-Reverse

- Retrieves jammed or incorrectly inserted documents. Manually reverse material by pressing and holding reverse sensor
